

Roommate Assignments

- I. All first year boarders are assigned rooms. If possible, international students will not be assigned to room with another student from the same country.
- II. Siblings will be separated unless the Director of Residential Life grants special permission.
- III. Students are expected to remain with their assigned roommates throughout the year. If conflicts arise, Residential Faculty and Prefects will mediate conversations and support the roommates in developing positive living arrangements.
- IV. After the first year, students may indicate roommate preferences on a Dorm Room/Roommate Change Form from the DRL.
- V. The Director of Residential Life makes the final arrangements and assigns the students to particular rooms.
